

WILL YOU GET *TIRED* OF COUNTING MONEY?

MOST OF US WILL NOT! IT MIGHT EVEN BE A LOT OF FUN!

The opportunity being presented to you here is unique – there is nothing like it. It's phenomenal and it's fabulous. Some are even calling it miraculous. Why? Because (1) the response rate to it has been consistently in the 40 - 50% range, and (2) there are only three levels, meaning it cycles very quickly.

Some people are even calling Tired Of Counting Money™ a “40-day retirement plan.”

Let's look at the numbers. If we suppose you send out 100 copies of this invitation letter and that you get a 50% response rate, you will have 50 participants coming into the program. If they do the same, you will see 50 participants X 100 copies mailed X 50% response rate = 2,500 participants coming in. If those 2,500 new participants follow the lead of the others, 2,500 participants X 100 copies mailed X a 50% response rate = 125,000 new participants. ==> ***\$20 to you X 125,000 participants = \$2.5 million. \$15 to you X 125,000 participants = \$1,875,000. \$10 to you X 125,000 participants = \$1,250,000.***

Can you retire on a few million dollars? Maybe you can, and maybe you can't. (Most of us would love to try – especially if we see this working and know we can repeat the process as often as we wish!)

What would be the result if you decided to mail out 500 copies? Using the same response rate of 50% through three levels, you do the math. (It gets a little scary!)

Very important point: There is absolutely NOTHING you can do today in this country or any other that will give you anything close to the results that Tired Of Counting Money™ will produce for you. Even if you decide to be conservative and use a much lower response rate than 50% in your calculations, you will still see phenomenal results because people all over America are struggling to make ends meet and looking for some way to climb out of that struggle. This is just as true in most other developed countries of the world as it is here.

You can look for a good opportunity or you can look for work. You can even look for both. Just don't make the mistake of not looking for a good opportunity...because if you're not looking for it, you will never find it.

Here's the point: We cannot control the economy, and we also cannot control many of our own personal economic factors, like whether we can hold on to a job we presently have, whether some unforeseen personal crisis will appear and create havoc in our lives, or even whether the price of fuel will make it a real hardship to put gas in your car. What we CAN control is how to generate more income, especially in a time of economic uncertainty.

Direct mail is the most reliable and proven way to reach other people who will be receptive to generating more income in their own lives. You can also advertise very cheaply to reach those same people in well-known and widely read publications which focus on income opportunities.

You must join and promote an opportunity which is affordable, which is as close to fail-proof as humanly possible, and which offers results as quickly as possible. It should also be an opportunity that YOU CAN CONTROL. Do not ask or trust others to do for you what is essential, which is to generate the income you need. Tired Of Counting Money™ meets all these requirements.
